INSTRUCTIONS TO AUTHORS

The Amrita Journal of Medicine publishes original manuscripts, meta-analyses and reviews, debates, interesting clinical cases, guidelines and consensus statements of clinical relevance and letters relating to all fields of medical and surgical specialities.

We reserve the right to copy or edit accepted manuscripts, reviews, letters and editorials. Corrected proofs will be sent to the corresponding author for final approval. The editors and publishers are not responsible for the opinions expressed by contributors to the Amrita journal of Medicine.

ABSTRACT: A Structured abstract of not more than 250 words should accompany each original article, systematic review or meta analysis. Abstracts for original contributions should be divided by individual headings into paragraph entitled; Objectives, Methods, Results and Conclusions.

Case reports should include a brief abstract describing the case(s) and literature review. Reviews must have an abstract included, which can be unstructured. Editorials need not include an abstract. Abbreviations or references to figures or tables should not be utilised in the abstract.

ORIGINAL ARTICLES: All original manuscripts should include the following: Abstract: Structured abstract as described above, Introduction: The specific aim(s) and a priori hypothesis need to be stated.

Methods: must include sufficient information to judge the quality of the work, including statistical analysis and study power where appropriate.

Results: Please do not duplicate results present in the text and tables.

Discussions: Consider including a brief statement of the major findings, the meaning of the study including possible explanations and implications for clinicians, the findings in relation to other studies and consideration of important differences in results, the strengths and weaknesses of the present study, and what are now the unanswered questions and future research needs.

Authors are required to include in addition to a structured abstract, a separate paragraph with 4-8 bullet points under the heading: what is known on the subject and what this research adds. This information will be included as a table at the end of the article, and is to be aimed at simply explaining the study’s importance and knowledge gained from it to those who are non-experts in the particular fields.

RANDOMIZED CLINICAL TRIALS (RCTs): RCTs are encouraged and will be fast tracked in the review and publishing schedule. Randomised clinical trials must all report their data in accordance with CONSORT (Consolidated Standards of Reporting Trials) statement. This ensures that you provide enough information for editors, peer reviewers, and readers to see how the trial was performed and to judge whether the findings are likely to be reliable. Please provide the following, as described in the CONSORT statement:

Five extra sub headed section in the main text of the paper: Protocol, assignment, masking, participant flow and follow up, analysis.

A completed checklist for editors and reviewers (not for publication) showing that you have described 21 key points in your report.

All RCTs must meet CONSORT guidelines, and include the CONSORT checklist with submissions. We may choose not to use all of the sub headings in the published version of the paper for reasons of readability.

For further enquiries please visit: http://www.consort-statement.org/

SYSTEMATIC AND CLINICAL REVIEWS: Reviews of systematic and clinical topics are encouraged for publication... Include a brief methods section on how the information was found. An abstract must be included. Inclusion of illustrations to illustrate teaching concepts is strongly encouraged. Review should be not longer than 2500–3000 words, excluding references, tables and illustrations.

CASE REPORTS: Selected case reports will be considered but should write to represent new clinical observations, new method of treatment or interesting cases that carry a message to the reader for diagnosis or treatment of patients. Case reports must be short and focused, and consist of not more than 1500 words excluding references. An abstract should accompany the report.

EDITORIALS: Editorials must consist of not more than 1000 words excluding references.

DEBATES: They must be written by different authors for the pros and cons, and will be crisp and short in nature, consisting of not more than 1000 words excluding references.

LETTERS TO THE EDITOR: Letters to the editor will be considered if they are written on published articles or reviews. Letters must be submitted within three months of the original or review articles. Letters should not be more than 400 words, should cite the previous article that appeared in the Amrita Journal that is being discussed, and should include not more than 5 other references.

REFERENCES: All the references should be numbered consecutively and be listed according to the order in which they are referred to in the text of the manuscript. The references should be typed double-spaced and abbreviations of journals must conform to those used in Index Medicus of the National Library of Medicine. The format should conform to the example listed below.

References to an article with 3 or less authors:

References to an article with more than 3 authors.

Reference to a book:

Reference to a chapter in a book:

TABLES: Each table should have an appropriate title, self-explanatory, and should not duplicate the text. The data should be logical and well organised so that it can be used to compare or classify related items. Table should be numbered consecutively in Arabic numerals beginning with 1.

ILLUSTRATIONS: Colour illustrations are allowed, and will not usually attract a cost to authors.

One set of original illustrations should be mailed. All the illustrations of graphs, artwork, and photographs should be numbered in consecutive Arabic numerals and submitted. A label should be affixed to the back of each illustration with the name of the author, manuscript title, figure number and an arrow indicating the top of the figure. The legend(s) of all figures should be typed double-spaced on a separate sheet of paper. When appropriate, arrows should be placed on photographs and drawings to indicate the portions to which reference is made. In the legends for photomicrographs, the magnification and stain utilized should be included.

RAPID COMMUNICATIONS: Rapid communications are welcomed and are guaranteed rapid decision and publication if accepted.

INVESTIGATION INVOLVING HUMAN SUBJECTS: All clinical research papers submitted which involves human or animal subjects must be accompanied by evidence of Institutional Review Board or Ethics Committee Review. The date the project was approved, when available, should be included.

MEASUREMENTS: All measurements should be in metric units.
